

CLICK MINIMIZER CHEAT SHEET

By clicking other advertisers links, you are then allowed to post your links or banners to the site. The best option here is to post 3 banners that are shown for a whole day with unlimited impressions.

The best results come from using the bigger sized banners (eg. 728x90 & 160x600). These banners are then shown on the main page and also when people post their own links to the site. If you need a site to create free banners, then see Fugly Banners further down in this report.

[List Surfing](#) (Added 20th October 2016)

Just surf 50 pages each month to be active and get UNLIMITED rotation of your site in the surf area without using any of your credits. Use your earned credits to receive additional exposure by sending an email ad, or exchanging for text or banner ads.

[Traffic Marketplace](#)

By surfing just 100 sites a week, you are entitled to a share of the credit pool bonus. Currently I am getting 200-300 credits free just for surfing 100 sites.
